Reviews

This book may be worth buying. I have read and i am confident that i am going to planning to go through once more once again in the future. Its been written in an exceptionally easy way and it is simply soon after i finished reading this publication in which actually altered me, modify the way i believe.

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 26 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO reviewed the Navys Shipboard Solid and Plastics Waste Management Program, focusing on the: (1) Navys planning processes; and (2) programs effectiveness since its implementation. GAO found that: (1) the Navys two prior plans for meeting shipboard solid waste discharge requirements were not well-coordinated and did not include interim milestones for minimizing waste until 1998 or later; (2) the Navy would benefit from examining other federal agencies and commercial carriers solid waste disposal experiences; (3) although the Navy has improved coordination for its November 1996 plan, the plan still does not include tasks or milestones to achieve near-term compliance for waste other than plastics; (4) by the time the Navy submits its 1996 plan to Congress, it will have 4 years to develop and install new technologies to meet the discharge requirements; (5) the Navy does not have an approach to meet future legal requirements for solid waste discharges; (6) the Navy has spent 52 million of the 80 million appropriated through fiscal year 1994 on discharge equipment; (7) three of the Navys four primary developmental projects have been cancelled, suspended, or reduced; and (8) although two Navy ships have reported progress in complying with solid waste discharge requirements, the Navy has not given adequate consideration to whether lessons can be learned from the experiences of non-Navy ships and individual Navy ships that report progress in complying with discharge requirements. This item ships from La Vergne, TN. Paperback.
