Excretion?Temperature of Body. Anatomy is the science which treats of the structure, form, and position of the various parts of the body. The human body is obviously separable into the head, trunk, and limbs; and if divided down the center from before backward by a vertical line, the two halves would almost exactly resemble one another. If the limb of any animal be examined, there will easily be recognized an external covering of soft material, and of varying thickness, termed the soft parts, and an internal hard part consisting of bone. If the limb be dissected, and the skin with the fur be cut through and turned aside, the pale red flesh is seen underneath, arranged in bundles or columns....
