The History Press Ltd. Hardback. Book Condition: new. BRAND NEW, The Classic Military Vehicles Story, Chris McNab, The mobilisation of troops and equipment has always been crucial to winning a war. During the twentieth century, the days of horse-drawn logistics and cavalry charges gradually became a thing of the past, and the age of military vehicles began. This book charts the development of military vehicles from steam-powered tractors to modern main battle tanks. The story reveals how such vehicles have changed the way wars are fought, either by increasing the speed and volume of logistics or troop deployments, or through the application of mobile firepower. The narrative explains key technical innovations from World War I, through the inter-war years to World War II, the Cold War and beyond. It pays homage to outstanding designs and those that are remembered with fondness, including the M3 Lee/Grant, T-34, Panther, Tiger, M1 Abrams, Chieftain and M4 Sherman tanks; the Bren Gun Carrier, the Willys 'Jeep', the Dodge truck; through to the modern 'Humvee' and Stryker, and many more. Chris McNab examines why they were invented, how they developed, their use in action, their strengths and weaknesses, and what it was like to be in the driving seat. This fascinating narrative is a highly readable guide to these much-loved classic vehicles, perfect for any enthusiast.
