Brand New Book ***** Print on Demand *****.With a focus on the specific needs of children learning Chinese as a foreign language, the Chinese for Young Beginners program is designed for children between the ages of seven and fifteen years old. This textbook series creates a context for a stimulating and interactive learning environment, where Chinese listening, speaking, reading and writing skills are acquired through language usage in real life situations. Age appropriate and enchantingly illustrated, Chinese for Young Beginners textbooks attempt to fill the gap between the increasing demand for learning Chinese at an early age and the lack of teaching materials relevant to children's daily life, cultural environment and imagination. While Book 1 cultivates language sense and lays a solid foundation with vocabulary, character writing, listening and conversational skills, Book 2 is written with the goal of extending students ability to communicate their daily life experiences. It contains ten lessons, which cover youth-oriented conversations about sports, school life, food, family, friendship, shopping, communication, pets, etc. The special features of this textbook include: Language game/activity-based exercises that engage students in developing new language skills while having fun How do you say it in Chinese? sections that provide examples of situational usage of Chinese words and phrases commonly used in conversations Quizzes, puzzles and substantial exercises that enhance listening and reading comprehension Various approaches that assist students in picking the right words and phrases to make correct sentences Translations from English to Chinese, and vice versa, to build Chinese writing skills 600+ new words/expressions The author of the Chinese for Young Beginners series, Bill Li, specializes in teaching Chinese as a foreign language.
