Island Press, 1992. Paperback. Book Condition: New. Island Press 1992 New/ In Plastic. Communities nationwide have initiated recycling programs in an effort to solve their solid waste problems. This informative guide presents an overview of recycling efforts around the country, an analysis of the various materials that can be reused, and a discussion of issues that need to be resolved in the future. Simply collecting recyclables does not solve the problem. There must be enough recycling plants so that collected materials do not ultimately end up in landfills. Moreover, manufacturers need incentives to use recycled materials, and consumers need to be educated to prefer recycled products. Finally, there must be a concerted effort to reduce the amount of waste created in the first place.
