Random House Inc, 2003. Hardback. Book Condition: New. 211 x 145 mm. Language: English . Brand New Book. From Molly Ivins and Lou Dubose, authors of *Shrub*, *Bushwhacked* is a hilarious, no-holds-barred look at George W. Bush and his administration, and an essential book for understanding the full, destructive impact of his presidency. For years, bestselling political commentator Molly Ivins has been sounding the alarm about George W. Bush. In *Shrub*, her 2000 skewering of presidential candidate Bush, the inimitable Ivins, with co-author Lou Dubose, offered a devastating exposé of Dubya's career and abysmal record as governor of Texas. Now, in their second book on our current White House occupant, Ivins and Dubose take the wire brush to the Bush presidency and show how he has applied the same flawed strategies he used in governing Texas to running the largest superpower in the world. *Bushwhacked* brings to light the horrendous legacy of the Bush tax cut, his increasingly appalling environmental record, his administration's involvement in the Enron scandal, and the real Bush foreign policy?botched nation building in Kabul and Baghdad, alienation of former allies?and, unfortunately, much more. Ivins and Dubose go beyond the too frequently soft media coverage of Bush to show us just how damaging his policies have been to ordinary Americans??the Doug Jones Average,? rather than the Dow Jones Average. *Bushwhacked* is filled with sharp observation, humor, and compassion for the people often ignored by the federal government and the Washington press corps. With the war on terrorism posing unprecedented challenges to our civil liberties, and with the Bush economic policy in shambles, it is high time for a close look at the state of our Union. Molly Ivins and Lou Dubose provide just that in *Bushwhacked*?an incisive, entertaining, and damning indictment of the Bush presidency. We ve...
