The Fifth International Symposium on Nitrogen Fixation with Non-legumes was held in Florence (Italy) on 10-14 September, 1990. Earlier Symposia of this series were held in Piracicaba (Brazil), Banff Alberta (Canada), Helsinki (Finland) and Rio De Janeiro (Brazil). The Symposiums main objectives were to bring together scientists working in many different fields of nitrogen fixation, to stimulate discussion on this important process and to have an appraisal of the most recent studies concerning nitrogen fixation with non-legumes. The Symposium was attended by 230 scientists from 32 different countries. This volume collects the contributions of 65 lectures and 87 posters, which are an up-to-date account of the state of knowledge on biological nitrogen fixation with non-legumes. The book provides a valuable reference source not only for specialists in nitrogen fixation, but also for researchers working on related aspects of agronomy, biochemistry, genetics, microbiology, molecular biology and plant physiology. It is with great pleasure that we acknowledge the contributions of the authors in assuring the prompt publication of this volume. We would also like to express our thanks to Kluwer Academic Publishers B. V. for the publication of these Proceedings. M. Polzinelli R. Materassi M. Vincenzini ORGANIZING COMMITTEE President M.
